

Weekly Progress Report			
Topic:	Chatbot – Final Project	Week No.	11
Course Code:	CSST101, CSST102	Term:	1st Semester
Course Title:	Advance Representation and Reasoning Basic Machine Learning	Academic Year:	2024-2025

Main Tasks Assigned:

Select dataset for the project
Prepare and preprocess the data
Define project scope and assign roles to team members (if in a group)

Work Completed:

Selected topic for the project and assigned roles to each member.

Challenges Encountered:

Problems with finding suitable source for our dataset.

Solutions Implemented:

Had our researcher secure a website to form our dataset from.

Tasks for Next Week:

Start on building the dataset.

Instructor's Feedback:

Instructor's Signature: _____

Date: _____
